

VISHAL ATMARAM BORSE

Data Analyst

📞 9373918881 | ✉ vishalborse8881@gmail.com | [🌐 LinkedIn](#) | [🐙 Github](#) | Mumbai, Maharashtra

Professional Summary

Aspiring Data Analyst skilled in Advanced Excel, SQL, Python, Power BI, and Machine Learning with experience in data cleaning, visualization, and predictive modeling.

Education

Master of Computer Applications (MCA) <i>St. John College of Engineering and Management, Palghar</i>	Pursuing
Bachelor of Computer Applications (BCA) <i>PSSVM Sailee Degree College of BCA, Borivali (YCMOU)</i>	2022 - 2025 CGPA: 8.18

Technical Skills

Data Visualization Tools : Power BI | Power Query | Tableau | Advanced MS Excel
Programming & Querying : SQL | MySQL | Python
Libraries : Numpy | Pandas | Matplotlib | Seaborn
Machine Learning : Scikit-learn | XGBoost | Classification & Regression Algorithms | Feature Engineering
Analytical Abilities : Data Analysis | Data Visualization | Data Cleaning & Transformation | Data Modelling | ETL | Exploratory Data Analysis (EDA) | KPIs Tracking & Reporting | Predictive Modeling | Problem Solving

Projects

- E-Commerce Sales Analysis Dashboard / SQL, Power BI / [GitHub](#)** **Sept 2025**
- Built an interactive Power BI dashboard to analyze e-commerce performance on 110000+ rows of data, tracking key metrics such as YTD Sales, Profit, Quantity, and Profit Margin.
 - Optimized DAX functions and data modeling for trend analysis and KPI tracking. Visualized regional sales distribution, product performance, and category-wise trends to support data-driven decisions.
- Smartphone Addiction Prediction Model / Python (ML) / [GitHub](#)** **March 2026**
- Developed a machine learning model to predict smartphone addiction based on user behavior patterns such as screen time, app usage, and sleep habits. Performed data preprocessing, feature engineering, and exploratory data analysis (EDA).
 - Implemented classification algorithms (Logistic Regression, Random Forest, XGBoost) to improve prediction accuracy. Achieved 93% accuracy using XGBoost, outperforming other models and selected as the final prediction model
- Apple Supply Chain & Logistics Dashboard / Power BI / [GitHub](#)** **March 2026**
- Developed an interactive Power BI dashboard to analyze end-to-end supply chain operations including suppliers, inventory, shipments, and customer performance.
 - Built data models and used DAX to track KPIs such as revenue, profit margin, lead time, and inventory turnover.
 - Identified key insights and designed four dashboards (Supplier, Inventory, Shipment, Customer) to support data-driven decision-making.

Experience (Internship)

- Data Analyst Trainee** **1 Month**
MedTourEasy (Traineeship Program) Remote *Tools Used: Excel, SQL, Power BI*
- Performed ETL processes involving data extraction from CSV and SQL sources, data transformation using Power Query, and preparation of datasets for dashboards.
 - Designed interactive Power BI dashboards to track KPIs and business metrics. Conducted trend analysis and reporting to support decision-making.

Certifications

- Google Data Analytics Professional Certificate – Coursera (2025)
- Advanced Excel – Course by Itvedant Education.Pvt.Ltd. (Aug 2025)
- SQL Mastery – Course by Itvedant Education.Pvt.Ltd. (Sept 2025)
- Power BI Essential – Course by Itvedant Education.Pvt.Ltd. (Oct 2025)
- Data Analysis with Python – IBM Developer Skills Network (Feb 2026)
- Machine Learning with Python – IBM Developer Skills Network (Feb 2026)
